Thanks!

I hope you're not too intimidated by my staff.

No, don't worry, they're very welcoming, we feel right at home.

I'm really impressed with the interior decoration...

... so refined and cosy at the same time!

That's true!

It's nice to remind me ...

... sometimes I find it all so ...

... "banal" ?...

bam!

I'd love to live in this kind of comfort,

but ...

Shiingz !!

... "A-true-witch-of-Ah -must-not-live -in-that-fashion".

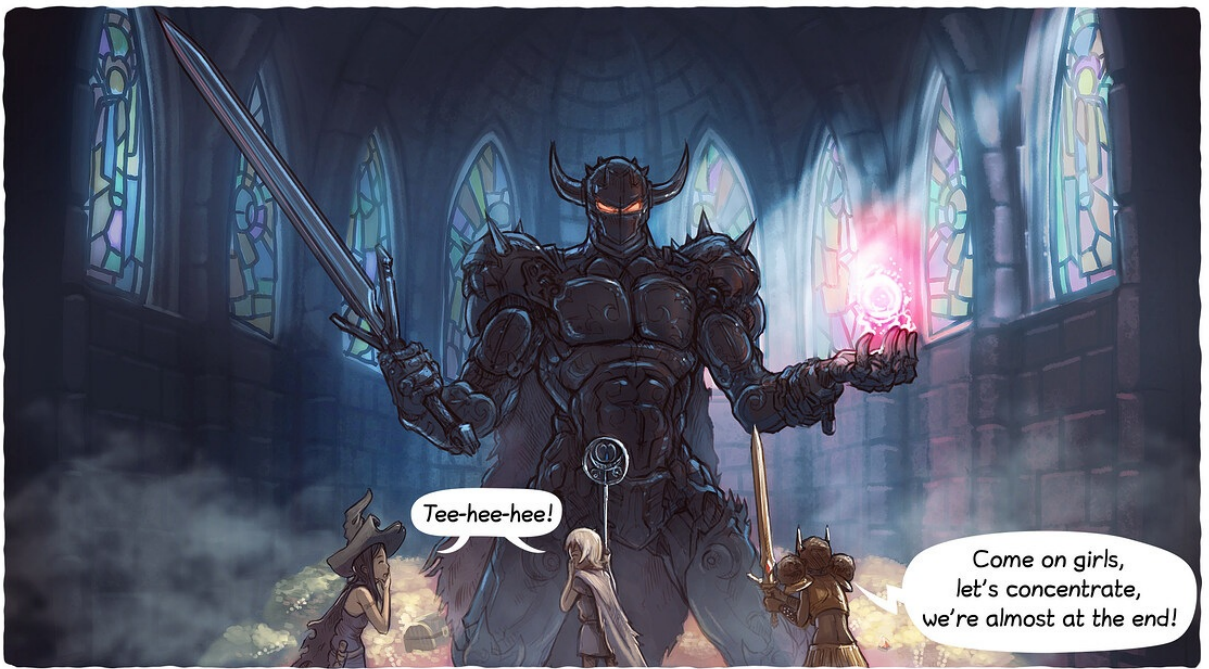

Ha ha!...

The weight of tradition...

It's like something my godmothers would say!

Really?

Oh, it's alright...!

You have to admit, this quest is super easy...

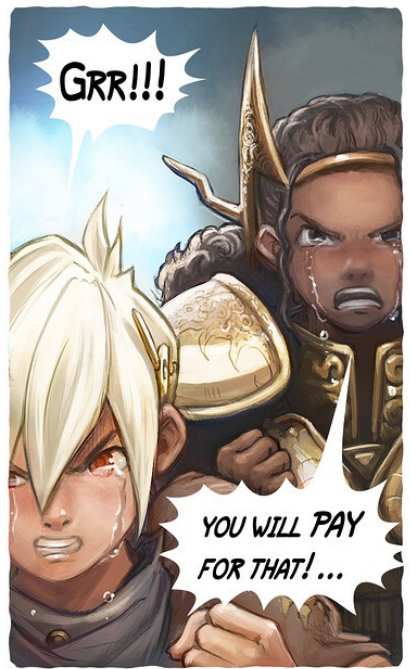

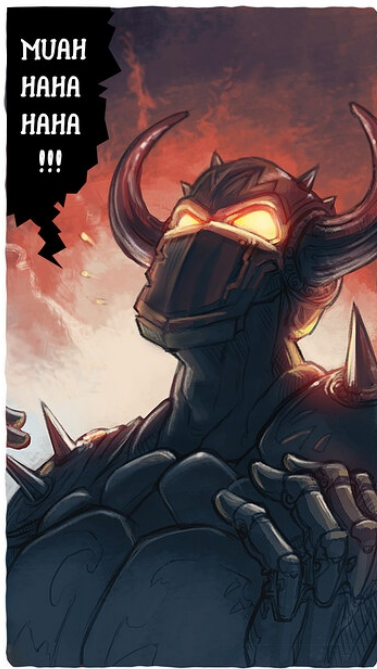

... and we haven't even started to...

PEPPER!!!

?!!

Shhshh

## **The HTML Battle Begins...**

In the shadow-haunted kingdom of Desktop Publishing, too many ancient evil awakens. The Adobe creature rises from forgotten ruins while our hero attempt to make his ebooks via... HTML. He must overcome his personal demons to not revive his PTSD with Scribus, and face the mashup of technology and enshitification that lead to eternal darkness. But victory demands sacrifice, and making ebooks this way probably worth it in terms of maintainance?
